

## NONPROFIT-

## FOCUSED

The nonprofit systems you use to manage your organization are entrusted with providing you and your team accurate, timely data to enable sound decision-making.

Just as you've surrounded yourself with trusted teams – staff, managers, board members and volunteers – each possessing special skills that all together, help carry out your organization's mission, so too must your nonprofit systems.

### **Nonprofit-Focused is Mission-Critical.**

Having a nonprofit-specific financial system means the tools are made for you and your organization's unique needs and reporting requirements. You don't adapt to the system, the system is made for you.

- **Nonprofit custom reporting** takes the guess work out of building reports and saves your accounting team valuable time
- **Modules add a custom functionality** to supplement your nonprofit accounting software – grants management, purchasing and requisitions, etc. – areas that can be manually-intensive can now be automated, improving organizational efficiency
- **On-premise or cloud-based software** – solutions to support your organization depending on what's right for you
