Veteran Accounting Solutions Provider, Ian Scotland, Joins AccuFund as General Manager

Scotland Brings 20 Years' Experience Providing Accounting Solutions to Nonprofit Organizations and Government Agencies

Needham, MA – December 6, 2017 – AccuFund, Inc., provider of financial reporting and accounting software for nonprofit, municipal and government organizations, today announced that veteran accounting solutions provider, Ian Scotland, has joined the company as general manager and vice president. Scotland will oversee company sales, marketing and client services. He will also execute the company's product vision working with Gordon Holfelder, who is stepping into the role of president after serving as vice president since the company's inception.

Scotland has a strong, traditional accounting background with expertise in both technology and nonprofit/government financial management. Prior to joining AccuFund, Scotland built two companies that worked exclusively with nonprofit organizations and government agencies. Payroll for Nonprofits, LLC offered complete payroll processing tailored to the needs of nonprofit organizations specializing in payroll allocation and general ledger import files. Binnacle Technology Solutions, LLC was a leading reseller of the AccuFund Accounting Suite, providing the software along with training and support. Prior to starting his businesses, Scotland worked for 10 years as controller and CFO at nonprofit organizations.

"Ian brings a lot to the table, as a CPA and years of experience selling and working with our accounting application," stated Holfelder. "He also brings a wealth of knowledge in the nonprofit and government markets. Ian is the consummate professional; well-known and respected within the reseller community. He is perfect for filling the role of managing our business, working with our business partners, and maintaining continuity in our operations."

"I am honored to assume the role of general manager at AccuFund," stated Scotland. "I look forward to continuing to apply my understanding of the needs of nonprofits and government agencies, and helping organizations resolve their ongoing challenges while improving their financial management. Having worked with the AccuFund Accounting Suite for the past 13 years, I am very confident and excited about the company's future and growth potential."

About AccuFund

AccuFund, Inc. is a nonprofit financial improvement systems specialist. AccuFund uses award-winning financial software, consulting services and industry best practices to help organizations streamline processes, improve efficiency and lower costs. Their nonprofit financial solutions are available on-premise or cloud-based.

AccuFund provides scalable accounting software systems to nonprofit organizations and government agencies. AccuFund's products are available exclusively through Value Added Resellers (VARs) located throughout the United States. The VARs provide AccuFund's customers with cost-effective onsite training and installation assistance.
