

Join us in person or online to learn first-hand about the updates, enhancements and new features AccuFund Accounting Suite has to offer you, your staff and your organization!

During the meeting, we will introduce and update all users on version 5.02 and new modules such as Travel Management. Additionally, we will review changes in year-end processing, especially W2s. We will also review financial expense reporting with AccuFund and show how to automate imports using af.exe.

The preliminary agenda includes:

- 5.02 intro/update
- travel management module
- changes in year end process especially W2s
- update on available documentation
- 10 things you may not know you can do in AccuFund
- Financial Expense reporting with AccuFund
- Automating imports using af.exe
- product update plans for 2015
- General Q&A
