

## Employee Self Service

AccuFund Anywhere Online

### Improve Employee Access to Their Personal Information

With the browser based AccuFund Employee Self Service module, employees can update personal data or tax preferences and view or print important documents.

Your human resources department controls which items employees can see. You also control the timeframe for accessing time-sensitive documents, such as open enrollment forms for insurance.

For each item, human resources also sets the level of permission an employee has, such as view only, change, and change with approval. Typically, employees can view and change their addresses, phone numbers, and contacts, while they can view and view and print their pay stubs and W-2s.

### Employee Self Service Onsite Version

Looking for the onsite version of this module?

[Show Me the Onsite Version](#)

The screenshot displays the AccuFund Employee Self Service interface. At the top, there is a 'Menu' dropdown and a 'Logout' button. The main header area includes 'Employee Portal' and a search bar containing 'Phone Numbers'. Below the search bar are buttons for 'View', 'Add', 'Change', and 'Delete'. The main content area features a table with the following data:

Type	Phone Number	Notes	Status
Primary	(303) 646-6166	This is now my new phone	Change pending
Mobile	(303) 886-9392	New mobile	

The left sidebar contains a navigation menu with categories: 'Edit My' (Address, Contacts, Phone Numbers, Requests, Taxes and Benefits, Time Sheets), 'Review' (Clockings), and 'View' (My Pay Stubs, My Self Service, News).

## Reduce Waste, Save Time, and Free People Up for More Important Tasks

AccuFund's Employee Self Service module improves employee access to data, while reducing the flow of paper and requests for copies of pay stubs and W-2s.

The module lets employees view the last 18 months of pay checks—either directly in the browser or in PDF format for local printing or saving.
