Take Advantage of Optional Investment Pool Tracking

The AccuFund Endowment System can automatically unitize funds and investment pools. This makes UPMIFA compliance easier, because spending rules are set up to preserve endowment capital. While default spending rules are provided, they can be customized as required.

Similarly, the allocation of earned and unearned investment earnings can be allocated using default options provided by the system or customized to match your specific needs.

Investment Pool Tracking manages information such as Investment Type, Investor Name, Target Percentages, and Initial Investment Amount. Other fields can be added as desired, with unlimited capacity.

Users can also check investment pool performance and run reports and queries on investment pool history. This module integrates with the Dashboard, providing an at-a-glance view of investment pool information.

Add-On Modules Help Customize your Solution

Different endowments have different financial software needs. Any of the following modules may be added as desired:

- Accounts Payable
- Accounts Receivable with Inventory
- Fixed Assets
- Payroll (Human Resources, Employee Portal, Employee Timesheet Entry, Time Clocks)
- Requisitions Management
- Purchasing with Inventory
- Grants Management
- Budget Development
- Position Control

The screenshot shows the AccuFund web application interface. On the left is a navigation menu with categories like 'Fund', 'Fund Balance', 'Fund Detail', 'Integration', and 'History'. The 'Fund Detail' section is expanded, and 'FundInfo' is selected. The main content area shows the 'Fund Specifics' tab for a fund with the following details:

- Start Date: 12/01/2015
- Purpose: Music program scholarship
- Department: Athletics
- Perpetual: Yes
- Initial Amount: 250,000.00
- Investment Pool: Investment Pool 1
- Pool GL Account: 9900-1110-2-000
