

Fees, Taxes & Licenses

AccuFund Anywhere Online

Administer Fees, Taxes, and Licenses from One Centralized Location

Using the AccuFund Fees, Taxes & Licenses module simplifies your agency's everyday tasks. For instance, when you issue a license, the module automatically assigns a certificate number and determines the amount to be collected. When you collect fees and taxes, the module includes information required for reporting purposes.

Simplify Cash Receipts for Fees, Taxes, and Licenses

The Fees, Taxes & Licenses module is an extension of the AccuFund Cash Receipts module. When you issue a license or impose a fee, any amount due transfers automatically to Cash Receipts.

For organizations marked as businesses, the AccuFund Fees, Taxes & Licenses screen will be active in Cash Receipts. Just select the type of fee or tax and the relevant fields will appear. You can enter information manually or import it from the business record and let the system make automated calculations based on predefined parameters.
