

PAYROLL SUITE

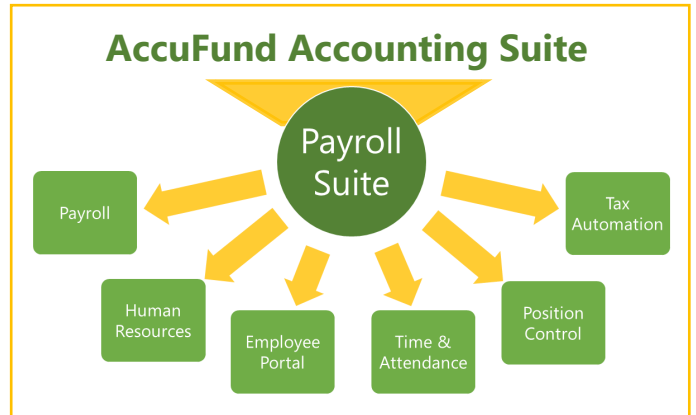

The AccuFund Payroll Suite has the services and features your organization needs bring your payroll in-house, or to improve your existing processes with our powerful set of payroll tools.

AccuFund's integrated tax service takes the risk and hassle out of processing payroll internally.

With Human Resources, Time & Attendance, Payroll, ACA, Employee Portal, Position Control, and more, our depth of payroll features and services enables your organization to confidently tackle your payroll.

We free you from the need for a payroll service that offers limited configuration and doesn't fully understand the unique needs of your agency.

ACCUFUND PAYROLL SUITE OVERVIEW

AccuFund has what you need to manage your organization's payroll effortlessly.

Payroll

Nonprofit and Government agencies have the most complex payroll needs. Our Payroll solutions can satisfy your payroll processing needs, from complex accruals and tricky deductions to complex general ledger distributions, our payroll suite can handle it all.

Human Resources

Is your government agency or nonprofit spending too much time on HR administration? We've created an easy-to-use and access employee self-service portal. Your employees will have direct access to Paystubs, W-2's, Filing Status, Accounting Reports, Dashboards, and more.

In addition, our HR module gives you the control to track employee information such as training, workers comp, benefits, compliance tracking, discipline issues, and more.

Affordable Care Act management is built in, seamlessly meeting your tracking and reporting requirements right through AccuFund.

Employee Portal

The Employee Portal is an application with a number of functions benefitting employees. From the portal, employees can view company news, policies, weather delays, etc. Employees can also enter time worked through a number of timekeeping options available from AccuFund. Lastly, employees can view reports and their dashboard metrics.

Time & Attendance

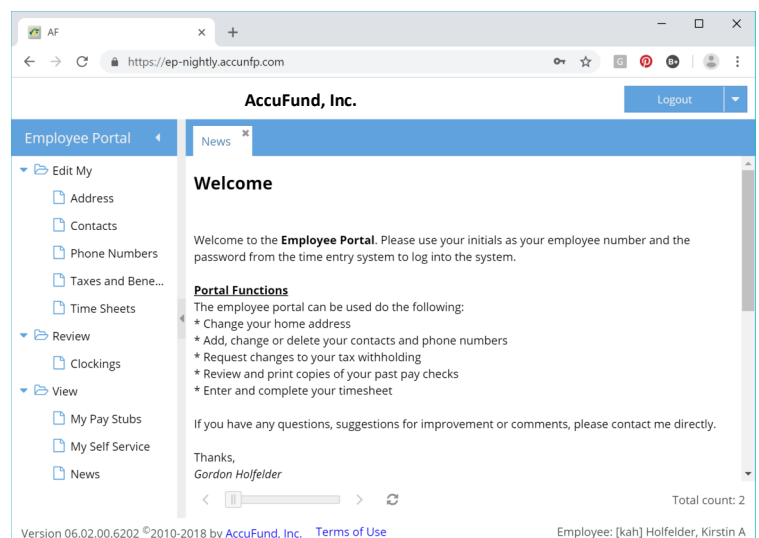

AccuFund's fully integrated time and labor management system helps you manage attendance, time off, labor allocations, and even Affordable Care Act requirements. We offer biometric timeclocks, tablet/phone apps, and browser based time entry options.

Position Control

This module provides budgeting by FTE or position, and creates optional encumbrances that enable reporting by position, and control during payroll process.

Tax Automation

AccuFund's low cost tax automation takes the hassle out of tax payment and filing by providing a seamlessly integrated tax service. Bring your payroll back in-house and outsource the tax risk.

AccuFund Employee Portal enables employees to view paystubs and W-2s online, as well as enter / edit time and personal info.

SEAMLESS INTEGRATION BETWEEN PAYROLL FEATURES AND ACCOUNTING

Our timekeeping and Payroll immediately integrate with our Accounting Suite, enabling up to date reporting on payroll related transactions.

Our Position Control module allows you to take control of your payroll budget, even create payroll encumbrances and seamlessly report on budget to actual financial statements.

AccuFund provides unsurpassed reporting and analytics; utilize standard reports or create customized reporting to meet your organization's requirements. The reporting options available in AccuFund are extensive and will meet the growing needs of your organization.

ACCUFUND PAYROLL MODULES AND INTEGRATIONS

- 1) Payroll Module–The heart of AccuFund Payroll Suite, managing all calculations, accruals and general ledger postings.
- 2) Human Resources–Manage employee data with seamless integration into payroll and unparalleled reporting.
- 3) General Ledger Integration–No payroll service can match AccuFund's ability to distribute an employee's payroll, following complex distribution tables and pools; all posted immediately for real-time reports.
- 4) Tax Management –Take that tax burden off your shoulders and ensure that all payments and filings are correct and on time.
- 5) Employee Self Service–Enables your employees to view dashboards, paystubs, W-2s, and other reports. They can update their taxes and other pertinent information.
- 6) Employee Timesheet Entry–Enables employees to enter their time sheets from a web browser.
- 7) Soft Clock–Use your tablet or phone to enter employee time.
- 8) Time Clocks–Biometric or fob enabled physical time clocks. They can be used in conjunction with other time entry methods.
- 9) Portal Reporting and Dashboard–Turn your Employee Portal into a report management tool! Enable non-accounting employees to retrieve accounting reports and view Dashboards from within the AccuFund Employee Portal.
- 10) Position Control–Take control of your payroll budget with position control; budgeting by position and even creating employee-based encumbrances.
- 11) Employee Pay Cards–Allow employees to receive their net pay on debit cards.
- 12) Incredible Reporting–The depth of AccuFund payroll features are tied into our integrated report writers that enable your staff to create custom reports.

Employees can enter time in a table or by using AccuFund's calendar time entry. Your organization can define different calendar types, so you can track and report employee work, break, or lunch.
